SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Magnitude 5.1 Earthquake, La Habra, Orange County

On 03/28/2014 at 2109 hours, the California State Warning Center was advised that a verified magnitude 5.1 earthquake occurred 2 miles east of La Habra in Orange County. The Orange and Los Angeles County Warning Points had no initial reports of damage or injuries at the time. Later reports indicated some power outages and water main breaks in the area along with damage to an overpass.

- The National Tsunami Warning Center issued a Seismic Information Statement advising of No Tsunami Danger from this earthquake.
- The Cal OES Southern Region, Law Enforcement and Fire Duty Officers are in contact with local authorities and will provide updates as they become available.
- Please see Southern California Significant Events slides for detailed information.

SITUATION SUMMARY (Cont.)

FEMA US&R Activation Order # 2014-0001, 2014-FIRE-2588, Washington Mudslide Incident

- On 03/24/13, the Warning Center received FEMA US&R Activation Orders for California US&R Task Force Members from the White Incident Support Team (IST) in response to the Washington Mudslide Incident. The California State Warning Center provided the Activation Order to the respective Task Force dispatch centers and the Cal OES Fire Duty Officer. A Cal OES Mission Number has been assigned for this activation.

Situation Overview:

- Search and rescue operations are continuing, with more than 225 responders in the field and 72 overhead staff on scene, including National, State and local Urban Search and Rescue teams and other federal, state, mutual aid and regional technical rescue volunteers. More than 12 search dog teams are on scene/alternating search periods. Operations for the incident response are now divided into two branches. The catastrophic slide that occurred on Saturday, March 22, separated the communities of Arlington and Darrington. To operate recovery efforts more efficiently, incident officials have divided the slide area into a West Branch based in Arlington and an East Branch in Darrington. A Washington National Guard (NG) Search and Extraction Team is on site, in addition, an 11 member Fatality Search and Recovery Team is being deployed, and a 50 person Search and Extraction team from Colorado will arrive Sunday to serve as force multipliers and allow for extended working hours.

Alaska Shield 2014

- **2014-FIRE-2622** On March 27, 2014, Cal OES deployed an Assistant Fire Chief with 72 CA-TF3 members, Menlo Park Fire Protection District (MNL) to Alaska for a training exercise under the direction of FEMA as part of Alaska Shield. They will be conducting 24 hour operations and return on Saturday, March 29

SITUATION SUMMARY

Significant Weather

- Winter Storm Warning is in effect to 0500 hours Sunday above 5500 feet for areas of Butte, Lassen, Plumas, Shasta, Tehama, Alpine, Amador, Calaveras, El Dorado, Nevada, Placer, Sierra, Tuolumne, and Yuba Counties.
- Winter Storm Warning is in effect from 0500 hours Saturday to 0500 hours Sunday for areas of Alpine, El Dorado, Nevada, and Placer Counties.
- Winter Storm Watch in effect from Monday afternoon through Tuesday evening above 5000 feet for areas of Fresno, Madera, Mariposa, Tuolumne, and Tulare Counties.

SITUATION SUMMARY

Significant Weather (Cont.)

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Rain will taper off today. Showers will develop as a cold frontal trough approaches northwest California. This trough will bring an unstable air mass and possible thunderstorms, some with hail, gusty winds and lightning. Sunday is forecast to be a dry day before the next system arrives Sunday night.

San Francisco Weather:

Rain will increase across the North Bay early and then spread southward through the Bay Area during the morning hours reaching the central coast by this afternoon. Dry weather returns Sunday and then a strong cold front will arrive Monday with rain and gusty winds. Scattered showers are forecast for Tuesday. Dry weather is expected to return by the middle of next week with more rain possible by the end of the week.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

Rain and mountain snow over Interior Northern California today with a threat of afternoon thunderstorms decreasing Sunday. A colder and wetter storm impacts the area Monday and Tuesday with another system possible towards the end of the week.

SOUTHERN CALIFORNIA:

Hanford Weather:

A moisture laden Pacific frontal system will move into and across the central California interior late today through tonight. High pressure will briefly rebuild Sunday night and Monday before an even wetter and colder Pacific storm moves into the region Monday night through Tuesday. High pressure will then return for drying and warming conditions by midweek.

Los Angeles Weather:

A series of storm systems are expected over the next week with breaks in between, along with cool and breezy conditions. The first system will be late tonight into Sunday morning; the second system looks stronger from late Monday into Tuesday with lower snow levels. The third system approaches toward the end of next week.

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Expect slightly warmer inland today under weakening high pressure. Tonight and Sunday, a trough of low pressure will move inland bringing stronger onshore flow with gusty west winds in the mountains and deserts and a slight chance of light precipitation along and west of the mountains through Wednesday.

Southeast California Weather:

Dry conditions and warming temperatures can be expected once again today ahead of a storm system which will move through the area tonight into Sunday. This system will bring increasing clouds and wind along with chances for precipitation in the Sierra and northern portions of the forecast area. Another storm system is forecast to move in late Monday through Wednesday with areas of gusty winds and showers.

WEATHER

California Precipitation Forecast - For March 28 – April 1, 2014

Region - Counties	Precipitation Amount (March 28 – April 1, 2014)
North Coast <ul style="list-style-type: none">• Del Norte, Humboldt, Mendocino, Lake, Sonoma, Napa	<ul style="list-style-type: none">• Highest amounts are confined to mostly Del Norte and coastal mountains of Humboldt counties ~ 3.00-6.80"• Central portions of the region ~ 2.50-5.00"• Areas around the North Bay ~ - 1.20-2.40"

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

5.1 Magnitude Earthquake, La Habra, Orange County

- The Southern REOC is activated at Level 2 as of 0900 hours until 1300 hours for monitoring damage assessment.

SIGNIFICANT EVENTS / ACTIVITY

Southern California

Magnitude 5.1 Earthquake, La Habra, Orange County

Situation Overview:

On 03/28/2014 at 2109 hours, the California State Warning Center was advised that a verified magnitude 5.1 earthquake occurred 2 miles east of La Habra in Orange County. The Orange and Los Angeles County Warning Points had no initial reports of damage or injuries.

The National Tsunami Warning Center issued a Seismic Information Statement advising of No Tsunami Danger from this earthquake.

The Cal OES Southern Region, Law Enforcement and Fire Duty Officers are in contact with local authorities and will provide updates as they become available.

SIGNIFICANT EVENTS / ACTIVITY

Southern California

Magnitude 5.1 Earthquake, La Habra, Orange County

Situation Update 03/29/2014 at 0900 hours:

Per the Cal OES Earthquake and Tsunami Program Manager:

- The CISN Southern Operations Duty Officer stated that a M5.1 earthquake occurred 1 mile SSE of La Habra in Southern California. It was preceded by two foreshocks and is now experiencing aftershocks. U.S. Geological Survey (USGS) computer analysis suggests there is a low likelihood of casualties and damage. Overall, the population in this region resides in structures that are highly resistant to earthquake shaking, though some vulnerable structures exist.
- The State Geologist, California Geological Survey, that the temblors were "east-west trending" suggesting the activity was occurring on the Puente Hills fault, which is a blind thrust fault.
- The California Earthquake Clearinghouse conducted a conference call at 0800 hours on 03/29/14 to assess the need to take further action. The California Earthquake Clearinghouse coordinates earthquake field investigations and share observations and knowledge among emergency responders and the engineering and scientific communities. Given the limited reports of damage, they will not take any action at this time.

SIGNIFICANT EVENTS / ACTIVITY

Southern California (Cont.)

Magnitude 5.1 Earthquake, La Habra, Orange County (Cont.)

Per the Cal OES Southern Region, the Operational Area provided the following Situation Status:

- The Operational Area agencies and jurisdictions continue to conduct damage inspections. Currently, there are reports of some damage, water main breaks, limited power disruptions and minor gas Leaks. These issues are currently being addressed.
- OEM will continue to monitor the situation and will provide additional information as necessary.

SIGNIFICANT EVENTS / ACTIVITY

Southern California (Cont.)

Magnitude 5.1 Earthquake, La Habra, Orange County (Cont.)

**Per the Cal OES Southern Region, the Operational Area provided the following Situation Status:
(Cont.)**

Cities reporting with multiple incident and impacts include:

- La Habra
- Brea
- Fullerton

Activations:

- Orange County Emergency Operations Center is activated at Level 2.
- Southern REOC activated at Level 2 as of 0900 hours.
- The American Red Cross is activated at Level 1.
- The City of Fullerton is activated at Level 1.
- The City of Brea is activated at Level 1.

Initial Damage Estimate:

City of Fullerton:

- Multiple sprinkler risers activated in businesses
- 5 homes damaged, 19 People Displaced
- 1 home with major damage/tagged, 4 people displaced
- 20 condo units damaged, 50 People Displaced
- Two (2) block walls blocking sidewalks

SIGNIFICANT EVENTS / ACTIVITY

Southern California (Cont.)

Magnitude 5.1 Earthquake, La Habra, Orange County (Cont.)

Per the Cal OES Southern Region, the Operational Area provided the following Situation Status: (Cont.)

Evacuations/Shelters

- Apartment Complex at 704 & 706 West First Avenue, La Habra evacuated. Buildings have been inspected and cleared, and all residents have been allowed to return home.
- One shelter has been opened at the La Habra Community Center located at 101 La Habra Blvd and is supported by the American Red Cross. As of midnight count, 38 people were in the shelter. The number of residents at the shelter is fluctuating due to the people leaving as of daybreak.
- 73 people have been displaced in the city of Fullerton.
- No animal shelters open at this time. No impacts to Orange County Animal Care.

Road Closures

- Carbon Canyon Road between Valencia and Olinda Village will remain closed until morning and inspection of the hills and removal of the boulders. Orange County Public Works inspection staff have completed a preliminary inspection on all County owned bridges and roadways and found minimal overall impact.

Hospitals

- All hospitals have returned to full operation

SIGNIFICANT EVENTS / ACTIVITY

Southern California (Cont.)

Magnitude 5.1 Earthquake, La Habra, Orange County (Cont.)

**Per the Cal OES Southern Region, the Operational Area provided the following Situation Status:
(Cont.)**

Infrastructure

Transportation:

- No damage or service interruptions to railways or bus service
- Cal Trans reports damage to the overpass at Magnolia/Orangethorpe
- No impacts to John Wayne or Fullerton Airports

Dams:

- No damage reported at this time
- Per Army Corps of Engineers, Engineering staff will begin inspections of Brea, Fullerton, and Carbon Canyon this morning and on Monday, Dam Operations staff will inspect Prado, Santa Fe, San Antonio, and Whittier Narrows. All county dams have been inspected and found to have minimal overall impact.

SIGNIFICANT EVENTS / ACTIVITY

Southern California (Cont.)

Magnitude 5.1 Earthquake, La Habra, Orange County (Cont.)

**Per the Cal OES Southern Region, the Operational Area provided the following Situation Status:
(Cont.)**

Infrastructure (Cont.)

Water:

- Water main breaks in Buena Park (1), Fullerton (6), La Habra (2).
- Breaks have been isolated and repairs are underway
- Customers without water should be few at this time as most breaks are on smaller lines. Largest is impacting 75 residents in Fullerton.
- Metropolitan Water District of Orange County confirmed no issues at this time
- No mutual water assistance requested at this time

Natural Gas:

- All pipelines at SoCal Gas facilities have been surveyed and no leaks were identified. Work crews are now focusing on the 252 customer leaks reported since last night.

Schools:

- No known school impacts at this time
- California Fullerton has no impacts at this time

SIGNIFICANT EVENTS / ACTIVITY

Southern California (Cont.)

Magnitude 5.1 Earthquake, La Habra, Orange County (Cont.)

Per the California Department of Public Health/EMSA (CDPH/EMSA):

- Current OA MH Condition is Yellow – Under Control / No Assistance Required
- No reports of major injuries
- All but one Emergency Department / Hospital OPEN and functional
- In-patient Healthcare Facilities – Under Control / No Assistance Required
- Medical Transportation System – Normal Operation

Per the California Department of Transportation (Cal TRANS):

- Cal TRANS personnel are conducting inspections. No significant damage to report at this time.

Per California Utilities Emergency Association (CUEA):

- All power outages have been 100% restored by all companies: SCE, LADWP, Sempra, and PG&E.

SIGNIFICANT EVENTS / ACTIVITY (Cont.)

FEMA US&R Activation Order # 2014-0001, Washington Mudslide Incident (No change)

On 03/24/13, the Warning Center received FEMA US&R Activation Orders for California US&R Task Force Members from the White Incident Support Team (IST) in response to the Washington Mudslide Incident. The California State Warning Center provided the Activation Order to the respective Task Force dispatch centers and the Cal OES Fire Duty Officer.

White IST Members from the following US&R Task Forces have been activated:

CA-TF 7: San Diego Fire – Rescue Department - 2 personnel

CA-TF 6: Riverside City Fire Department – 8 personnel

CA-TF 1: Los Angeles City Fire Department – 2 personnel

CA-TF 8: Chula Vista FD – 1 personnel

CA-TF 8: San Marcos FD – 1 personnel

CA-TF 7: Sacramento City Fire Department – 3 personnel

Situational Summary

Information as of 3/24/14

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

Beginning Tuesday, March 25, 2014, several storms will travel through the state that will possibly bring significant rain and snow. Precipitation is predicted to be heaviest in the far northern portion of the state.

As our state's rainy season nears its end, much of California has received only about 50% of normal precipitation for this rainy season. Heavy rain and snow would have to fall throughout California most days in April to reach average annual rain and snowfall levels, which is highly unlikely. Even with such precipitation, California would remain in drought conditions, due to low water supplies in reservoirs from the two previous dry years.

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

Situational Summary (cont'd)

Information as of 3/24/14

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- The most recent snowpack survey, conducted on February 27, recorded California snowpack at 24% of normal. The next snowpack survey will be conducted April 1. A more recent update using automated devices shows snowpack at 24% of normal as of March 23.
- DWR has announced that water essential for health and safety will be delivered through the state water project in spite of the zero allocation policy. Deliveries will be boosted if storms produce enough rain and snow to increase reservoir storage and the snow pack.
- On March 27, 2014, SWRCB will be at the groundbreaking ceremony for the City of Visalia's \$147 million Water Conservation Plant upgrade and recycled water distribution pipeline, made possible by an earlier CWA SRF loan from the State Water Board.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

Current Drought Updates:

- 2014 Drought Response Report will be updated again on 04/01/14 unless the situation warrants.

Declarations/Resolutions/Proclamations: (No Change)

State:

01/17/14 – January 17, 2014, Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for these drought conditions.

CAL OES MISSIONS

New Cal OES Missions

- **2014-LAW-2637** On 3/28/14 at 2124 hours, Air Force Rescue Coordination Center (AFRCC) advised of an emergency locator transponder (ELT) sounding in the southern Kern County. A Civil Air Patrol (CAP) Incident Commander (IC) has been assigned to locate and silence the device. Per Cal OES LDO, CAP was able to locate the ELT at a residence in the Quartz Hill area. ELT was silenced, non-distress. **Mission Closed**

Ongoing Cal OES Missions

- **2014-FIRE-2588** Cal OES Fire Branch has opened a mission to coordinate and track Urban Search and Rescue (US&R) personnel assigned and deployed in support of response and recovery efforts due to a large landslide that occurred on 3/22/14 in Oso, Snohomish County, Washington State. FEMA US&R Activation Order attached with this mission is 2014-0001a.
- **2014-FIRE-2548** CAL FIRE request for an aircraft and aircrews with fuel tenders to support the annual joint CNG, MHEM/AAML Training at the CAL FIRE Academy from 04/04/14 to 04/06/14 . All costs incurred for CNG personnel, fuel, equipment, and assets will be assumed by CNG.
- **2014-SOC-2111** Mission is to test the Cascadia Subduction Zone (CSZ) air bridge concept by air transporting 7 passengers from OES and 1 CANG logistics planner on 13 May 2014 from Mather to the State Staging Area (SA) in Redding, to one POD in Del Norte and one POD in Humboldt, to the Redding State SA, and return to Mather. Passengers will discuss actions at the Redding SA and at each OA POD while they are at each location. The air bridge is a critical component to CSZ response and recovery. It is imperative this concept is tested to ensure response teams can be successfully transported into the effected region and the affected Operational Areas are able to receive aircraft at designated PODs.

UPCOMING EVENTS, TRAINING, EXERCISES

Diablo Canyon Power Plant, Rehearsal / Full Scale Exercise

Diablo Canyon Power Plant in San Luis Obispo will be hosting two full scale Hostile Action Based exercises this Spring. A dress rehearsal exercise will be held on April 16, 2014 and a FEMA evaluated exercise will held on May 21, 2014. This is part of the required biennial demonstration of our ability to protect the public from a radiological incident at the nuclear power plant.

2014 Golden Guardian

Planning is currently underway for the Governor's 2014 exercise series. The series will test the *California Cascadia Subduction Zone Earthquake and Tsunami Response Plan* developed by FEMA Region IX and Cal OES

- Logistics Rehearsal of Concept Drill - April 2, 2014

UPCOMING EVENTS, TRAINING, EXERCISES

- **2014-FIRE-2622** On March 27, 2014, Cal OES deployed an Assistant Fire Chief with 72 CA-TF3 members, Menlo Park Fire Protection District (MNL) to Alaska for a training exercise under the direction of FEMA as part of Alaska Shield. They will be conducting 24 hour operations and return on Saturday, March 29
- **Alaska Shield 2014** encompasses a series of exercises over the course of nearly two years that build on a series of four prior statewide Alaska Shield exercises. Discussion-based workshops and table top exercises address the complexities of catastrophic planning, response, and recovery through subject-matter specific topics and scenarios. Topics include, but are not limited to: medical surge, mass casualty, mass care, activation of 2011 State EOP Catastrophic Annex task forces, and executive leadership. The capstone event of the Alaska Shield 2014 is the full-scale exercise. An earthquake scenario resulting in major disruption will (1) exercise the ability of communities to respond, assume responsibility for initial life safety needs at the local level; (2) assess the State's ability to coordinate resources and actions to quickly support and stabilize the life safety situation throughout the State, while planning forward for sustained response and long-term recovery; and (3) exercise joint state and federal response to a catastrophic event.

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
